2478 Fairview Drive  
Carson City NV, 89701

21 December 2009

1. The training offered by the Controlled F.O.R.C.E. staff is equaled by none. If Commanders and senior leaders want to save lives and prevent injury during training, the Controlled F.O.R.C.E. training system is the system to use. It is designed for Military, Law enforcement and Security personnel to save lives and it does just that.
2. Let me give you some background; I was introduced to Controlled F.O.R.C.E. when I attended the Inter-service Non-Lethal Individual Weapons Instructor Course (INIWIC) at Ft. Leonard Wood Mo. And to be perfectly honest, I wasn't really impressed with the Controlled F.O.R.C.E. that was taught. I was then invited to attend the 9<sup>th</sup> annual United States National Standards of Training Association (U.S.N.S.T.A.) Conference in Las Vegas Nevada. I figured since the Guard would pay for it, it couldn't hurt to give it another shot. So I went to the conference and if I learned anything it was that I had a lot more to learn and the Controlled F.O.R.C.E. staff was the ones to teach me. I'm now a level three instructor, working my way to obtain my Master instructor, and an advocate of the Controlled F.O.R.C.E. system. And I still have a ton to learn.
3. The entire staff of Controlled F.O.R.C.E. wants to provide the best possible training available. Yes they charge, but you can't put a price tag on survival. There are a lot of other companies out there that claim to be able to give this type of training and they will charge too. The difference is simple, with Controlled F.O.R.C.E. You get what you pay for plus some. They are the only company that cares not only about what they train but who they train. I know that if I have a question I can pick up the phone and call any time for whatever reason, and I will get the answer I need. You can't get that kind of service from any other company. They will make themselves available to you for whatever training needs you want; they are very affordable, and worth every penny of it. Controlled F.O.R.C.E. is and will be the only training system used by the Nevada Army National Guard Military Police and it's what I use on the street as civilian Law Enforcement. Try it once and you'll never think the same way about hand to hand combatives again.

"Great trainers aren't born... they're made here". Controlled F.O.R.C.E.
